

Deosulf U 60

Sulphur preparation

Description

The paste Deosulf U 60 is readily incorporated and uniformly dispersed i.e provides a trouble-free means of incorporated insoluble sulphur. When using Deosulf U 60, no agglomerates are formed, local overcure is avoided and consequently vulcanizates with excellent ageing properties are obtained. Scorch safety is improved and the danger of sulphur bloom in the uncured state is reduced

Composition

insoluble sulphur dispersed in organic agents

Application

Deosulf U 60 is advantageously used instead of insoluble sulphur in powder form in compounds with the following properties:

- Optimum dispersion of sulphur
- Excellent storage stability
- Optimum green tack
- No sulphur bloom

Stir thoroughly before use

Dosage

1,67 part Deosulf U 60 corresponds to 1 part sulphur

Benefits

Spotless dispersion of insoluble sulphur
Especially for soft compounds
Prevents sulphur blooming from the raw compound
FDA suitable

Associated products

Deosulf L 95

Storage

In originally sealed package in cool and dry places
Storage stability: min. 12 months

Supply Form

20 kg in PE-pails

German Food Legislation (BfR recommendation XXI)

Not approved

US Code of Federal Regulations, FDA – CFR Title 21, 177.2600
